PULLEYMAN

MANUAL ROPE WINCH

The perfect all-purpose rope winch

For maintenance and installation work, mechanical workshops, agriculture and forestry

Can be used in all positions (lifting, pulling, etc.)

No mains power supply required

Weighs only 3.5 kg and fits into every tool-chest

For 300 kg & 600 kg loads

Also available in a set with a Hilti battery-powered screwdriver

Self-locking planetary gear (patented)

Operated with a normal battery-powered screwdriver or drill

The basic model comes with 12 mtr. rope. Other lengths up to 160 mtr. also available on demand

PULLEYMAN

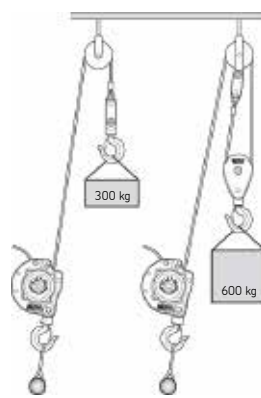

Uses

Fixed PULLEYMAN

PULLEYMAN with fixed lifting hook

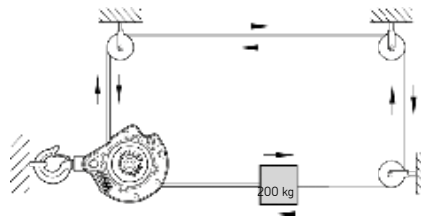

PULLEYMAN fixed to the floor

PULLEYMAN - Lift loads with a battery-powered screwdriver!

A tool, capable of lifting or lowering objects, independent of electricity and operating only with a battery-powered screwdriver? Can be used as a hoist in factories and forestry operations, or as a crane on construction sites, for house-building or in car and truck service stations e.g. for lifting the engine block out of a vehicle - the uses of a tool of this nature are almost infinite and will make life easier in very many trades. The good news: A tool like this already exists!

Fixed rope, moving PULLEYMAN, load direction horizontal and inclined

Fixed PULLEYMAN moving rope, load direction straight and inclined

Number of pulls	Angle of traction	Single pull	Double pull
Pulling force / kg	6°	1,500	3,000
	12°	975	1,950
	16°	825	1,650
	27°	585	1,170
	35°	205	870

PULLEYMAN

Typical uses

WIEDENMANN
... weil viel davon abhängt!

Use with a tripod to lift a man-hole cover

Secured to the tripod by an adapter plate with an anchor ring

Use in the forestry

Maintenance in a high rope course

Use in sewage works

Lifting e.g. a boiler

Smallest clear height!

Lift up to 600 kg!

Use in vehicle workshops or generally on vehicles

Loads of up to 300 kg (even up to 600 kg with a sheave) can be lifted, dragged or lowered with the PULLEYMAN. Thanks to its innovative technology and patented "self-locking" planetary gear, the PULLEYMAN is particularly versatile and safe in use. Whether for use in factories, for installation or maintenance work, in agriculture or forestry, in vehicle workshops, on building sites or even for domestic use, the PULLEYMAN is a practical assistant everywhere which is always simple to operate and ready for

immediate use. The basic model comes with 12 metres of rope which is sufficient for vertical lifts in places difficult for a crane to access.

Ropes up to 160 metres long can be supplied for greater heights or even for providing the motive power for a short horizontal or inclined aerial ropeway.

And on the question of the tool used with PULLEYMAN, we at Wiedenmann Seile put our trust in the products of our OEM equipment partner **HILTI**.

The **HILTI** battery-powered systems offer excellent performance and cable-free movement even under the most difficult conditions. The cable-free motor and gearbox never fail to impress with their almost silent operation and low heat generation which guarantee a long working life.

The exclusive **HILTI** Lithium Cordless Power Care (CPC) draws the maximum possible power from the lithium-ion batteries.

PULLEYMAN SET 1

- Rope winch with 300 kg safe working load
- 12 metres long rope on a plastic drum*
- in a robust plastic carrying case

Item No. 50pulleyman-set1

€ 469,00

PULLEYMAN SET 2

- Equipment as set 1 with 300 kg safe working load
- Including a HILTI SF 14-A battery-powered screwdriver
- 2 x 14V / 3.3Ah Li-ion batteries + charger
- with a plastic carrying case

Item No. 50pulleyman-set2

€ 879.00

PULLEYMAN SET 3

- Rope winch with 600 kg safe working load + sheave
- 12 metres long rope on a plastic drum*
- with a plastic carrying case

Item No. 50pulleyman-set3

€ 519.00

PULLEYMAN SET 4

- Equipment as set 3 with 600 kg safe working load
- including a HILTI SF14-A battery-powered screwdriver
- 2 x 14V / 3.3Ah Li-ion batteries including charger
- with a plastic carrying case

Item No. 50pulleyman-set4/H

€ 929.00

PULLEYMAN SET 5

- Equipment as set 3 with 600 kg safe working load
- including a HILTI SF 6-A22 battery-powered screwdriver
- 2 x 22V / 5.2 Ah Li-ion batteries + charger
- with a plastic carrying case

Item No. 50pulleyman-set5/H

€ 1,139.00

PULLEYMAN SET 6

- Equipment as set 3 with 600 kg safe working load
- including a HILTI SF 8M-A22 battery-powered screw-driver
- 2 x 22V / 5.2 Ah Li-ion batteries + charger
- with a plastic carrying case

Item No. 50pulleyman-set6/H

€ 1,349.00

For securing the PULLEYMAN to the AM 100 tripod

- Adapter for securing the PULLEYMAN to the AM 100 tripod

Item No. 58pulleyman-am100

€ 93.00

Pulleyman accessory set / stainless steel spherical locking pin

- for a faster change of rope! Consisting of 3 spherical locking pins!

Item No. 50pull-set-kugelsper

€ 82.00

*In addition to the basic equipment of 12 mtr. of rope, lengths of up to 160 mtr. can also be ordered! Price per metre approx. € 3.00

Value Added Tax as imposed by law must be added to all prices. Orders with a price of € 250.00 net or more are delivered free of charge to destinations within Germany. All items subject to availability.
